

SUMMER EMPLOYMENT OPPORTUNITY

Organization **EMEND Project, Department of Renewable Resources,
University of Alberta**

Job Title **Summer Research Assistant (Core Crew)**

Term **Summer, Fulltime**

Job Start Date **May 1, 2011**

Job End Date **August 31, 2011**

Job Location **Edmonton / EMEND research area (NW of Peace River, AB)**

Vacancies **4-6**

Interested in learning about boreal forest ecology while getting paid to do it?

We are looking to hire hard-working post-secondary students currently enrolled in a biology or forestry related program that are comfortable working outdoors rain or shine. Long workdays, mud, bears, and mosquitoes are to be expected. Therefore, an easy going, positive attitude is very important!

EMEND is a large-scale, multi-disciplinary research project that addresses the issue of how best to manage forest stands to preserve biodiversity and maintain productivity in a sustainable forest management context. Duties will be focused primarily around forest biomass studies and experiment-wide plot remarking. You may also get an opportunity to participate in various graduate student projects.

EMEND is located 85 km NW of Peace River, AB. Wages start at \$2200 per month and include room and board. First-aid certification and ATV experience are assets.

Visit the EMEND website for more information: www.emendproject.org

Please mail resume and cover letter to:

**Charlene Hahn
Northern Forestry Centre
5320 122 street
Edmonton, Alberta
T6H 3S5**

or email to: chahn@ualberta.ca

Application Deadline: **March 1, 2011.**

Successful candidates will be required to complete and pass the UofA defensive driving course and driving evaluation as well as an ATV course.
